## 1. Stakeholder and forerunner trainings / events overview

<b>Title of the event</b>	<b>Date, place</b>	<b>Focus</b>
<i>Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.</i>	15.09.2017, Skórzec	<i>Training for stakeholders on transition to low-carbon community</i>
<i>Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.</i>	15.09.2017, Wodynie	<i>Training for stakeholders on transition to low-carbon community</i>
<i>Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.</i>	22.09.2017, Kotuń	<i>Training for stakeholders on transition to low-carbon community</i>
<i>Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.</i>	22.09.2017, Siedlce	<i>Training for stakeholders on transition to low-carbon community</i>
<i>Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.</i>	29.09.2017, Korczew	<i>Training for stakeholders on transition to low-carbon community</i>

## 2. Detailed description of particular events

### Training 1

Title: **Possibilities of financing activities related to improving air quality in Mazovia. Project preparation and project management - Transition to low-carbon energy? Together it is possible.**

Date: **15.09.2017**

Place: **Wodynie**

Participants: **24**

Brief description:

**During the training there were session on topics related to low-emissivity. The training program contained lectures:**

1. Save energy - protect the climate
2. Possibilities of financing activities related to improving air quality in Mazovia
3. Energy planning in the commune including dispersed energy sources
4. Energy management in the commune – a way to a low-emission economy
5. Strategic energy partnerships PPP and energy cooperatives
