Summary

Who are we?

We are a team of young professionals working interdisciplinary with the aim of changing mentalities and housing conditions, while increasing energy efficiency in Romania.

What did we do?

In 2014 we represented Romania with EFdeN solar house prototype in the final round of the international competition Solar

Decathlon Europe in France competing with other 19 teams from 16 countries and 4 continents. We had to pass through 10 interdisciplinary contests from architecture, engineering, innovation and communication.

We designed and built solar house EFdeN that is safe and comfortable, energy efficient, 100% with no monthly bills, automated and environmentally friendly.

How to create a project?
