Baseline – Regional Energy Profiles
- Analysis of present energy status (energy and emission balances for different sectors)
- Identification of potentials, challenges and barriers

Vision
- Stating the development goal of the region / municipality / organisation
- Aim at development scenarios beyond business-as-usual

Roadmap
- Statement of priority areas for reaching the vision
- Development scenarios and identify leverage points and required actions

Priority Area 1
- Objective
- Implementation strategy
  Step by step strategy, Roles and responsibilities of different actors, Time schedule, Budget and resources needed
- Collaboration with stakeholders
- Monitoring Strategy

Priority Area 2
- Objective
- Implementation strategy

Action Plan
- Desk research statistical databases
- Stakeholder involvement individual
- Regional trainings
- CEESEN Boot Camp
- Skill-set for Action Plan development
- Trail development of Action Plans as input for partners

Input for energy roadmap
Collaborative definition of regional vision
Input for energy roadmap
Desktop research statistical databases
